

# DUAL STACK FUNCTIONAL TRAINER (HTX-2000)

## DESCRIPTION

TuffStuff's Dual Stack Functional Trainer (HTX-2000) is ideal for facilities searching for a light commercial, compact strength training platform. With European-inspired styling and forward-facing design, the HTX-2000 includes six individual pulleys that swivel 360° to provide virtually unlimited functional and traditional strength training options. Plus the exclusive leg extension/curl station offers exercises not commonly found with other functional trainers.

Rate for light commercial use, the HTX-2000 is great for hotels and motels, Police and Fire Depts., medical and rehabilitation centers, apartments and condominiums, community centers, and more. The Dual Stack Functional Trainer includes two (2) 200 lbs. solid-steel weight stacks.

## SPECIFICATIONS

Weight	840 lbs
Dimensions	L 79 x W 74 x H 81 in
Home Lifetime Warranty	HOME LIFETIME WARRANTY* Lifetime on everything to the original purchaser when used only in a HOME environment, applies to defects from manufacturer only. * See Owner's Manual for details.

ALL OTHER PARTS not mentioned, one year from the date of purchase to the original purchaser.  Light Commercial Use: Light Commercial warranty applies only to facilities like hotels, apartment complexes, personal training studios, fire & police stations, etc. where the equipment would be used by no more than 30 people per day.
Frame Materials	Solid and stable 3" round 11-gauge tubular steel with a combination of 2x3" oval tubing and 2" round tubing
Finish	Two-tone powder coat finish – Platinum Sparkle and Cathedral Gray.
Upholstery	Premium grade naugahyde formulated to resist bacteria, stains, mildew and oil.
Padding	Durable high density pads upholstered in premium grade naugahyde.
Cables	1/8" USA-Made/Certified EXERFLEX PRO 1000 lbs. high performance fitness cable. With user friendly "free-flow" handle design.
Weight Stack	Includes (2) 200 lbs solid steel weight stacks
Cable Ratio	The HTX-2000 Dual Stack Functional Trainer contains a unique cable ratio designed to provide extended cable travel. With extended cable travel, users may perform a variety of functional exercises further away from the machine. As a result, the resistance felt at each handle is approximately 1/4 of the weight selected.
