LK6800 PROFESSIONAL
TREADMILL

Maximum speed
25km/h

Running surface
160x55cm

Inclination
15~17%

Maintenance

HST phenolic resin running deck for less maintenance that avoids the need of lubrication.

5.0HP MOTOR

A more powerful and reliable 5 hp motor with Green Power technology that minimizes energy requirements and improves motor efficiency and life.

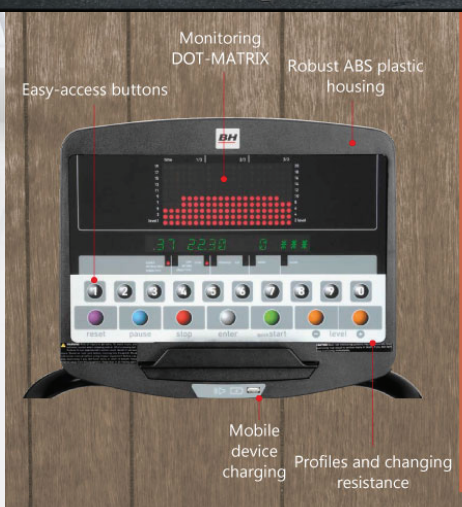

LATERAL HANDLEBAR

Aluminum side grips and non-slip rubber footrests.

EASY TOOLBAR

Easy Toolbar in the handlebar for an easier use of buttons.

LED Monitor

For the most classic users, this line has an advanced interface dot matrix (LED) showing the profile of exercise out through the training session. This LED monitor is completely self-generated and offers complete freedom to fitness center managers. It requires zero electrical cost and the ability to distribute the machines easily in any fitness room space. In addition, the monitor is designed so that users get maximum performance from the first moment. All types of profiles and trainings are provided with live heart rate monitoring to get the best training.

GENERATION WELLNESS

The auto-generated LED monitor offers greater freedom for the centre managers. Zero expenses on electricity and the option of not being bound by electrical installations for the layout of the machines.

LARGE-FORMAT DISPLAY

The oversized housing, in robust ABS, enables a comfortable and pleasant use of the machines for everybody. The large buttons improve the precision of the movements.

USER FRIENDLY

The monitor has been designed so the users can easily get maximum benefit from the very first moment. All types of profiles and training sessions are provided with live heart rate monitoring for a better training.

SMARTFOCUS

Thanks to the fastest touchscreen technology in the market, the user will have access to all the content and training programs in high resolution. In addition, to ensure complete entertainment during exercise, you can also surf the Internet with maximum connectivity.

TOTAL CONNECTIVITY

Accessing the Internet, using the newest apps and watching TV while doing your favourite exercise is already a reality, thanks to SmartFocus.
